Georgia Medical Licensure August 2013 - Present
GA 070561

Indiana Medical Licensure January 2011 – Present
IN01068925A

Technology Experience

- Conventional EBRT: photons and electrons
- IMRT: CNS, H&N, thorax, abdomen, pelvis, groins, extremities
- Proton beam therapy (IUH Proton Therapy Center, Bloomington, IN)
- Gamma Knife (C-model) and linac-based (Novalis 600C) SRS
- Cyberknife SRS and SBRT
- Certified Optune provider (Novocure)
- Linac SBRT (Novalis, Trilogy, and Truebeam): lung, spine, adrenal, liver
- LDR brachytherapy: Prostate, GYN (intracavitary), eye plaques.
- HDR brachytherapy: Partial breast (Mammosite, Contura and SAVI), GYN (vaginal cuff and Fletcher-Suit), endobronchial and prostate
- Craniospinal irradiation (protons)
- Total body irradiation (moving table technique)
- Total skin electron irradiation (Stanford 2-field 6-position technique)

Business/Information Technology Experience 1994-2004

La Solution Technique, 1/04 – present
Independent consultant

Ernst & Young, LLC 10/98 – 5/02
Manager – Critical Technologies

Romac International 4/98 – 10/98
Technology Consultant

Compuware Corporation 9/96 – 4/98
Technical Writer, Business Analyst

Unlimited Solutions, Inc. 6/94 – 9/96
Technical Writer/Translator (French to English)

Honors

Ernst & Young's Critical Technologies division; included performance management, IT planning and strategy, as well as project monitoring. Revenue managed: \$4 million per year.

Ernst & Young's 2000 Top Performer Rating (top 10% of consulting resources in the nation).

Technology Management Panelist for WITI (Women in Technology International) 2001 conference

Compuware Corporation's 1997 Profiles in Excellence award for Achievement, Sales, and Leadership.

Employment/Clinical Experience

Emory Radiation Oncology: Implemented **Outcome Studies Database** by performing needs analysis, workflow analysis, data modeling as well as creation of MSAccess database. Work effort includes interfacing to legacy "Record & Verify" radiation therapy treatment system (Varian, Varis Vision v7.0) and providing data aggregation and querying capabilities.

Johns Hopkins Orthopedic Surgery: Completed project assessment and planning for **Orthopedic Clinical Outcome Database**. Performed requirements gathering, data architecture assessment, custom report design, as well as vendor selection.

Empire Blue Cross and Blue Shield: Technical Manager for proprietary Web application implementation. Responsible for project management, performance and functional testing.

Unlimited Solutions Inc: Technical Writer and Translator responsible for creation of user manual for point-of-sale software with international distribution. Translated user specifications from French clients in Paris into English for software development in United States. Responsible for graphic user-interface design and user requirements documentation.

Walt Disney World: Performed Technical Assessment for Product and Services Group, examined technical feasibility of proposed system with integration to 20 internal applications. Provided formal recommendations to executive management on architecture and approach. Included Enterprise Application Integration (EAI) considerations as well as future wireless and business-to-business (B2B) requirements.

AT&T Broadband: Project Manager for EAI integration effort, responsible for insuring integration between online order management system and legacy billing system with web Methods Enterprise Server. Automated solution saved client an estimated 51K per month.

Coca ~ Cola North America: led technical assessment examining third party integration. Included assessment of B2B integration architecture, development of metrics and audit process, risk management and executive presentation.

Sunbeam Corporation: Program Management for four international JD Edwards implementations. Activities included project tracking, reporting, resource allocation, technical issue resolution and program planning. Facilitated project communication and integration efforts between Lyon, France and Florida.

Initiated and led the E&Y Professional Women's Network (PWN):

- Creation of an action plan for retention of women and minorities that was presented to E&Y executive management.
- Outreach program to minority women within the Atlanta community to teach technology skills
